

Steps to configure Gulp Project

1. Install Visual studio code editor <https://code.visualstudio.com/download>
2. Install Git <https://git-scm.com/downloads>
3. Install Node <https://nodejs.org/en/download/>
4. Open Visual studio code editor

5. Open the najiz-master folder in Visual Studio Code.
6. When project is opened. Open terminal window by pressing ctrl + tilde Sign button.
7. Run command **npm install gulp -g**
8. Run command **npm install --save-dev gulp**
9. Run command **npm install --save-dev gulp-sass gulp-autoprefixer gulp-cssmin browser-sync gulp-concat gulp-minify gulp-rename gulp-imagemin**
10. Run command **gulp najiz-go**
11. Project will be opened in the default browser.

Note: you can review the najiz pages direct from dist folder.
